## **Government Employees Caught Playing Dirty Don't they care what is right?**

TORONTO – February 1, 2010 – A group of well-paid government employees with ample time and unlimited amounts of **your tax dollars** to spend are attempting to convince other government employees that a **peaceful** Canadian with **no criminal record** and **no associations** with organized crime, should spend **10 years in prison** for **disagreeing with a bad law**.

To prevent this peaceful Canadian from funding his day in court...

Yet another **government employee spent your money to steal** the peaceful Canadian's home. Dalton McGuinty's **Liberal government attacked** this peaceful Canadian. **And you are next**.

**On Thursday, February 18 three government employees will decide what kind of Canada you live in...**

1. **Freedom of Mobility:** You will need to **ask permission** to move.
2. **Right to Privacy:** You will be **registered** and **tracked**, and **forced** to **answer** many **questions** that **breach privacy** legislation. **Tens of thousands** of government workers and contractors have **instant access** to **your personal information**.
3. **Right to be free from Unreasonable Search and Seizure:** you could be **forced** to **submit** to a **warrantless search** of **your home** whenever the **police** want.
4. **Right to Self Protection:** This **undeniable right** is ignored. **Our constitution confirms this right** with the words "that the subject may have arms for their defense".
5. **Right to Equality:** **First nations** people **don't have to abide** these laws... nor do **government employees**.
6. **Right to own Property:** During the course of **their campaign** to **make Canadians their indentured slaves**, these **public "servants"** have **confiscated** legally acquired **private property**.
7. **Right to Counsel Upon Arrest:** Yes, that's correct! **You are forced by law** to **assist police** both verbally and physically in their **warrantless searches**.

**Government workers are stealing your freedom and rights...**

Your rights have always been there – going all the way back to 1689 English Common Law.

For 128 years Canadians were neither required to have a license nor register all their firearms. Now possessing a firearm requires a license or criminal charges.

Why do government workers insist on punishing an innocent man?

While you maintain your regular life, the innocent man is doing all he can to remain out of jail, while being hounded by government employees *spending unlimited amounts of your money to silence him.*

And when they finish with him – you're next.

## **Show your support at the Firearms Charter Challenge Rally**

Thursday February 18, 2010 at 8:30am

Court of Appeal for Ontario, Osgoode Hall  
361 University Av, Toronto, ON M5G 1T3

The appeal begins at 10:30
